ANNUAL AWARDS DINNER

TUESDAY 10.29.13

THE CALIFORNIA CLUB

538 South Flower Street
Los Angeles, CA

6 pm Cocktails | 7 pm Dinner | Business Attire

american federation
for aging research

The American Federation for Aging Research (AFAR) is a non-profit organization whose mission is to support biomedical research on aging and the diseases associated with aging.

What scientists are learning today about the processes of aging will help people grow older, healthier—less susceptible to disease and disability.

Since 1981, AFAR has advanced basic research and breakthroughs in the science of healthy aging by supporting 3,000 talented MDs, PhDs, and students nationwide.
